DURAPUF ROOF PANEL

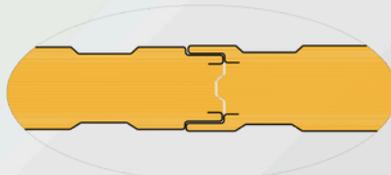

DURAPUF WALL PANEL

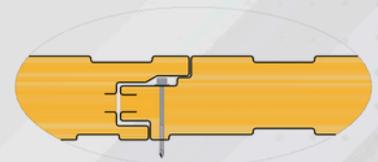

Types of Joints

1. Single Tongue & Groove (for 30 to 50 mm)

2. Double Tongue & Groove (for 60 mm and above)

3. Concealed Fastener (for 40 to 100 mm)

Material Specification

Top Sheet	0.4mm to 0.8mm
Bottom Sheet	0.3mm to 0.8mm
PUF Thickness	30mm to 180mm
Available Length	all standard lengths (customized also available)

Technical Specification

Core Density	$40 \pm 2 \text{ kg/m}^3$
Water Absorption	$\leq 2\%$ by volume Closed-cell content:$\geq 90\%$
Thermal Conductivity	0.024 0.03 W/m°C
Service Temperature	-40°C to +80°C

Fire Specification

Normal PUR	DIN 4102 Class B3 EN13501-1 Class E-F	Easily combustible
FR-PUR	DIN 4102 Class B2 EN13501-1 Class E	Normally combustible
PIR	DIN 4102 Class B1 EN13501-1 Class B	Hardly combustible

(Ral 7024)

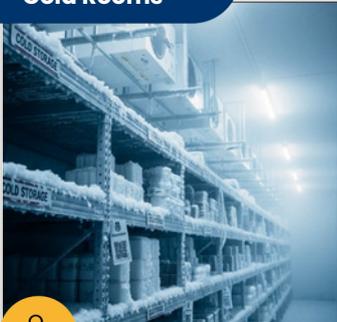

Dusty grey
(Ral 7037)

Caulfield green
(Ral 6005)

APPLICATION

Cold Storage & Cold Rooms

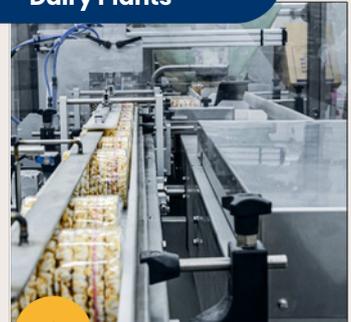

Temperature controlled environments

Industrial Warehouses & Factories

Thermal efficiency & durability

Food Processing & Dairy Plants

Hygienic & easy to clean

Pharmaceutical & Clean Rooms

Airtight & energy efficient

Prefab Structures & Site Offices

Quick & portable solutions

Logistics, Ripening Chambers & Pack Houses

Stable & energy saving
